Dear 7<sup>th</sup> and 8<sup>th</sup> Grade Parents,

For Pre-Algebra, Algebra, and Geometry, calculators will be used in class on a regular basis. Our math classrooms have calculator sets, and thus, buying a calculator is not required for the 2020-2021 school year.

While a calculator is not essential, the purchase of one may be advantageous for the future so that students are better prepared when they transition to high school mathematics. We understand that graphing calculators can be expensive tools and have listed the calculator requirements for the surrounding high schools below.

**Chanhassen:** TI-83+ calculator or similar

**Holy Family:** TI-83+ or TI-84+

**Eden Prairie:** TI-84+ or TI-89

**Benilde St. Margaret's:** TI NSPIRE

If choosing to buy a graphing calculator, we would expect the TI-84 to be more suggested than the TI-83, as it is more of an updated model and has a few advantages over the TI-83.

Listed below are a few graphing calculators that many St. Hubert students have used in the past.
